MOBILE FREEDOM. ALSO FOR YOUR BICYCLES.

The freedom to travel to any place at any time: of course, this is as natural for a van as for us to have a place to sleep. Thanks to TRIGO-VAN, you can now enjoy this freedom all the more if you have bicycles with you. Instead of time-consuming and blocking access to the interior, TRIGO-VAN simply lets you have access in no time at all. Even loaded with three heavy e-bikes, TRIGO-VAN is easily moved to clear the way to the interior. Wherever you go next time, taking the bicycles with you has never been more comfortable.

AT A GLANCE

I Innovative operating concept

- I Ergonomic design
- I Effortless swivelling of the loaded carrier
- I Lighting Panel with automatic folding function
- I Snaps into place automatically: This is ensured by the newly developed locking system
- I Swivel function with stop protection for the right door
- I Free access to the rear doors at all times, even when loaded. Thanks to the 100 degree opening angle
- I Foldable carrier including fixing option

I Quality Tested

- I Designed, developed and tested according to the industrial quality standards
- I Special and long-standing know-how in the field of load carriers
- I Made in Germany

I 80 kg payload for up to 3 e-bikes, bicycles or fat bikes

I Own weight ca. 50 kg

I Suitable for Fiat, Peugeot and Citroën

I Optional or existing towbar can be used without restrictions when the carrier is folded up
